				Day Month Year

6 Give this report to the doctor or Treating Health Professional of the person being cared for to complete.

Person being cared for	Date of birth
------------------------	---------------

Instructions for the Treating Health Professional

This report may be used to decide eligibility for:

Carer Allowance — an income supplement for people who
provide additional daily care and attention for an adult or child
with a disability or a medical condition, or an adult who is frail
aged. It can be paid in addition to wages or another income
support payment.

Carer Allowance is not taxable or assets tested. Carer Allowance is income tested.

- Carer Payment is an income support payment paid to carers who, because of the demands of their caring role, are unable to support themselves through substantial paid employment.
- Special Disability Trust beneficiary status a trust established solely in order to provide for the current and future care and accommodation needs of a person with a severe disability.

Payment for your report

We have asked the carer to let you know at the time of making their appointment that they require you to complete this report for your patient. This is to make sure that you have sufficient time for the examination.

The time taken to complete the medical report may be claimed under a Medicare item when included as part of a consultation.

Completing this report

In this report you will be asked to provide details of the person's medical condition(s). Complete all the required questions in this report. If you have any questions about this report, you can call us on 132 717.

Returning this report to us

You can give this report and any attachments to the person providing care or you can return this report directly to Centrelink.

Thank you for your assistance

This report is based on the Adult Disability Assessment Tool (ADAT). The ADAT is used only for the purpose of assessing eligibility for Carer Payment (adult), Carer Allowance (adult) and Special Disability Trusts. Its purpose is to measure the level of care needed by an adult because of their disability, and is designed to provide access to Carer Payment, Carer Allowance and Special Disability Trust for carers of people with similar levels of disability, even where the cause and type of disability differ. The ADAT measures the amount of help required to undertake activities of daily living such as mobility, communication, hygiene, eating and a range of cognitive and behavioural areas. This may include supervising and prompting the care receiver to undertake these daily activities.

Person being cared for	Date of birth

13 Release of medical information about the person being cared for

The Freedom of Information Act 1982 allows for the disclosure of medical or psychiatric information directly to the person requiring care. If there is any information in your report which, if released to the person, may harm their physical or mental well-being, identify it and briefly state below why it should not be released directly to this person. Similarly, specify any other special circumstances which should be taken into account when deciding on the release of your report.

Is there ar	ny information in this report which, if released, might cial to the person's physical or mental well-being?
No 🗌	Go to next question
Yes	Identify the information and state why it should not be released.

If you have recorded information at this question, return this report directly to us after providing your details at question 16.

Person being cared for Date of birth

Confidentiality of information The personal information that is provided to you for the purpose of this report must be kept confidential under section 202 of the Social Security (Administration) Act 1999. It cannot be disclosed to anyone else unless authorised by law. There are penalties for offences against section 202 of the Social Security (Administration) Act 1999.
